

How to Find the Best Style ETFs

Finding the best ETFs is an increasingly difficult task in a world with so many to choose from. How can you pick with so many choices available?

Don't Trust ETF Labels

There are at least 112 different All Cap Blend ETFs and at least 446 ETFs across twelve styles. Do investors need 40+ choices on average per style? How different can the ETFs be?

Those 112 All Cap Blend ETFs are very different. With anywhere from 18 to 3615 holdings, many of these All Cap Blend ETFs have drastically different portfolios, creating drastically different investment implications.

The same is true for the ETFs in any other style, as each offers a very different mix of good and bad stocks. Large Cap Blend ranks first for stock selection. Small Cap Value ranks last. Details on the [Best & Worst ETFs in each style are here.](#)

How to Avoid Paralysis By Analysis

We think the large number of All Cap Blend (or any other) style ETFs hurts investors more than it helps because too many options can be paralyzing. It is simply not possible for the majority of investors to properly assess the quality of so many ETFs. Analyzing ETFs, done with the proper diligence, is far more difficult than analyzing stocks because it means analyzing all the stocks within each ETF. As stated above, that can be as many as 3615 stocks, and sometimes even more, for one ETF.

Anyone focused on [fulfilling the fiduciary duty of care](#) recognizes that analyzing the holdings¹ of an ETF is critical to finding the best ETF. Figure 1 shows our top-rated ETF for each style.

How to Avoid “The Danger Within”

Why do you need to know the holdings of ETFs before you buy?

You need to be sure you do not buy an ETF that might blow up. Buying an ETF without analyzing its holdings is like buying a stock without analyzing its business and finances. No matter how cheap, if it holds bad stocks, the ETF's performance will be bad. Don't just take my word for it, see [what Barron's says](#) on this matter.

PERFORMANCE OF FUND'S HOLDINGS = PERFORMANCE OF FUND
