

Featured Stock in January's Safest Dividend Yields Model Portfolio

Five new stocks made January's <u>Safest Dividend Yields Model Portfolio</u>, which was made available to members on January 19, 2022.

Recap from December's Picks

On a price return basis, our Safest Dividend Yields Model Portfolio (+10.1%) outperformed the S&P 500 (+3.0%) by 7.1% from December 21, 2022 through January 17, 2023. On a total return basis, the Model Portfolio (+10.3%) outperformed the S&P 500 (+3.0%) by 7.3% over the same time. The best performing large-cap stock was up 29%, and the best performing small-cap stock was up 17%. Overall, 16 out of the 20 Safest Dividend Yield stocks outperformed their respective benchmarks (S&P 500 and Russell 2000) from December 21, 2022 through January 17, 2023.

Buy the Safest Dividend Yields Model Portfolio

This report leverages our cutting-edge <u>Robo-Analyst technology</u> to deliver <u>proven-superior</u>¹ fundamental research and support more cost-effective fulfillment of the fiduciary duty of care.

This Model Portfolio only includes stocks that earn an <u>Attractive or Very Attractive</u> rating, have positive free cash flow (<u>FCF</u>) and <u>economic earnings</u>, and offer a dividend yield greater than 3%. Companies with strong free cash flow provide higher quality and safer dividend yields because strong FCF supports the dividend. We think this portfolio provides a uniquely well-screened group of stocks that can help clients outperform.

Featured Stock for January: Advance Auto Parts, Inc. (AAP: \$147/share)

Advance Auto Parts, Inc. (AAP) is the featured stock in January's Safest Dividend Yields Model Portfolio.

Advance Auto Parts has grown revenue by 3% compounded annually and net operating profit after tax (NOPAT) by 9% compounded annually since 2016. The company's NOPAT margin has risen from 6% in 2016 to 9% over the trailing twelve months (TTM), while invested capital turns improved from 1.3 to 1.4 over the same time. Rising NOPAT margins and invested capital turns drove return on invested capital (ROIC) from 8% in 2016 to 13% TTM.

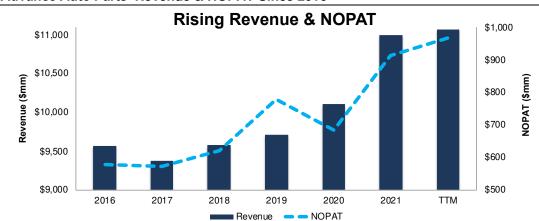

Figure 1: Advance Auto Parts' Revenue & NOPAT Since 2016

Sources: New Constructs, LLC and company filings

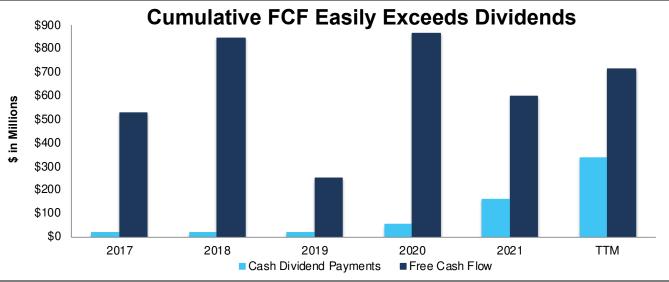

¹ Our research utilizes our <u>Core Earnings</u>, a more reliable measure of profits, as proven in <u>Core Earnings</u>: <u>New Data & Evidence</u>, written by professors at Harvard Business School (HBS) & MIT Sloan and published in The Journal of Financial Economics.

Free Cash Flow Supports Regular Dividend Payments

Advance Auto Parts has increased its regular dividend from \$0.24/share in 2017 to \$3.25/share in 2021. The current quarterly dividend provides a 4.0% annualized dividend yield.

More importantly, Advance Auto Parts' free cash flow (FCF) easily exceeds its regular dividend payments. From 2017 to 2021, Advance Auto Parts generated \$3.1 billion (23% of current enterprise value) in FCF while paying \$270 million in dividends. Over the TTM, Advance Auto Parts generated \$714 million in FCF and paid out \$336 million in dividends. See Figure 2.

Figure 2: Advance Auto Parts' FCF vs. Regular Dividends Since 2017

Sources: New Constructs, LLC and company filings

As Figure 2 shows, Advance Auto Parts' dividends are backed by a history of reliable cash flows. Dividends from companies with low or negative FCF are less dependable since the company may not be able to sustain paying dividends.

AAP Is Undervalued

At its current price of \$147/share, Advance Auto Parts has a price-to-economic book value (PEBV) ratio of 0.8. This ratio means the market expects Advance Auto Parts' NOPAT to permanently decline by 20%. This expectation seems overly pessimistic given that Advance Auto Parts has grown NOPAT by 9% compounded annually since 2016 and 6% compounded annually since 2011.

Even if Advance Auto Parts' NOPAT margin falls to 8% (below its TTM NOPAT margin of 9%) and revenue grows by just 2% compounded annually (below its 6% revenue CAGR since 2011) over the next decade, the stock would be worth \$180+/share today – a 22% upside. See the math behind this reverse DCF scenario. In this scenario, Advance Auto Parts' NOPAT would grow 1% compounded annually through 2031. Should the company's NOPAT grow in line with historical growth rates, the stock has even more upside.

Critical Details Found in Financial Filings by Our Robo-Analyst Technology

Below are specifics on the adjustments we make based on Robo-Analyst findings in Advance Auto Parts' 10-Ks and 10-Qs:

Income Statement: we made \$421 million in adjustments with a net effect of removing \$297 million in nonoperating expenses (3% of revenue). Clients can see all adjustments made to Advance Auto Parts' income statement on the GAAP Reconciliation tab on the Ratings page on our website.

Balance Sheet: we made \$444 million in adjustments to calculate invested capital with a net decrease of \$40 million. The most notable adjustment was \$125 million (2% of reported net assets) in <u>asset write-downs</u>. See all adjustments made to Advance Auto Parts' balance sheet on the GAAP Reconciliation tab on the Ratings page on our website.

FEATURED STOCKS

Valuation: we made \$4.3 billion in adjustments, all of which decreased shareholder value. Apart from total debt, one of the most notable adjustments to shareholder value was \$434 million in deferred tax liabilities. This adjustment represents 5% of Advance Auto Parts' market value. See all adjustments to Advance Auto Parts' valuation on the GAAP Reconciliation tab on the Ratings page on our website.

It's Official: We Offer the Best Fundamental Data in the World

Many firms claim their research is superior, but none of them can prove it with independent studies from highly-respected institutions as we can. Three different papers from both the public and private sectors show:

- 1. Legacy fundamental datasets suffer from significant inaccuracies, omissions and biases.
- 2. Only our "novel database" enables investors to overcome these flaws and apply <u>reliable</u> fundamental data in their research.
- 3. Our proprietary measures of <u>Core Earnings</u> and <u>Earnings Distortion</u> materially improve stock picking and forecasting of profits.

Best Fundamental Data in the World

Forthcoming in <u>The Journal of Financial Economics</u>, a top peer-reviewed journal, <u>Core Earnings: New Data & Evidence</u> proves our Robo-Analyst technology overcomes material shortcomings in legacy firms' data collection processes to provide superior <u>fundamental data</u>, <u>earnings</u> models, and <u>research</u>. More <u>details</u>.

Key quotes from the paper:

- "[New Constructs'] *Total Adjustments* differs significantly from the items identified and excluded from Compustat's adjusted earnings measures. For example... 50% to 70% of the variation in *Total Adjustments* is not explained by *S&P Global's (SPGI) Adjustments* individually." pp. 14, 1st para.
- "A final source of differences [between New Constructs' and S&P Global's data] is due to data collection oversights...we identified cases where Compustat did not collect information relating to firms' income that is useful in assessing core earnings." pp. 16, 2nd para.

Superior Models

A top accounting firm features the superiority of our ROIC, NOPAT and Invested Capital research to Capital IQ & Bloomberg's in Getting ROIC Right. See the Appendix for direct comparison details.

Key quotes from the paper:

- "...an accurate calculation of ROIC requires more diligence than often occurs in some of the common, off-the-shelf ROIC calculations. Only by scouring the footnotes and the MD&A [as New Constructs does] can investors get an accurate calculation of ROIC." pp. 8, 5th para.
- "The majority of the difference...comes from New Constructs' machine learning approach, which leverages technology to calculate ROIC by applying accounting adjustments that may be buried deeply in the footnotes across thousands of companies." pp. 4, 2nd para.

Superior Stock Ratings

Robo-Analysts' stock ratings outperform those from human analysts as shown in this <u>paper</u> from Indiana's Kelley School of Business. Bloomberg features the paper <u>here</u>.

Key quotes from the paper:

- "the portfolios formed following the buy recommendations of Robo-Analysts earn abnormal returns that are statistically and economically significant." pp. 6, 3rd para.
- "Our results ultimately suggest that Robo-Analysts are a valuable, alternative information intermediary to traditional sell-side analysts." pp. 20, 3rd para.

Our mission is to provide the best fundamental analysis of public and private businesses in the world and make it affordable for all investors, not just Wall Street insiders.

We believe every investor deserves to know the whole truth about the profitability and valuation of any company they consider for investment. More details on our cutting-edge technology and how we use it are here.
