

Focus List Stocks Long/Short Outperforms by 25% in 1Q26

Our [Focus List Stocks: Long Model Portfolio](#), the best of our Long Ideas, and our [Focus List Stocks: Short Model Portfolio](#), the best of our Danger Zone picks, beat the Risk-Free Rate (RFR) ¹ as a long/short portfolio by 25% in 1Q26. See Figure 1.

Longer term the Model Portfolio has outperformed the Risk-Free Rate as a long/short portfolio by 41% since the start of 2021 through 1Q26. See Figure 2. This outperformance underscores how important reliable fundamental research is.

Figure 1: Focus List Stocks: Long/Short Performance vs. Risk-Free Rate: 1Q26

Sources: New Constructs, LLC

Note: Gain/Decline performance analysis excludes transaction costs, dividends and rebates. The Risk-Free Rate is based on the 3-month T-bill.

Buy the Focus List Stocks: Short Model Portfolio

Buy the Focus List Stocks: Long Model Portfolio

The [long portfolio was up ~10%](#) while the [short portfolio fell ~19%](#) and outperformed as a short for a net return of +28.8% compared to the Risk-Free Rate at +4.2% in 1Q26. Note that short portfolios outperform when they fall more than the benchmark.

¹ The Risk-Free Rate is based on the 3-month T-bill.

Note: Gain/Decline performance analysis excludes transaction costs, dividends and rebates. The Risk-Free Rate is based on the 3-month T-bill.

Figure 3 details the Model Portfolios' performance, which includes all stocks present in the Model Portfolios at any point in 1Q26.

Figure 3: 1Q26 Long/Short Performance of Stocks in the Focus List Model Portfolios

Number of Stocks	Number of Outperformers	Number of Underperformers
85	63	22

Sources: New Constructs, LLC

Performance includes stocks in the Model Portfolio in 1Q26 as well as those removed during the same time (0 stocks).

The Focus List Stocks: Long Model Portfolio leverages superior fundamental data, which provides [novel alpha](#). [Professional](#) and [Institutional](#) members get real-time updates and can track all Model Portfolios on our site.

We're here to help you navigate any market cycle. Our [uniquely rigorous fundamental research](#) consistently earns [#1 rankings](#) in several categories on SumZero.

Check Out the Indices Based on New Constructs Research

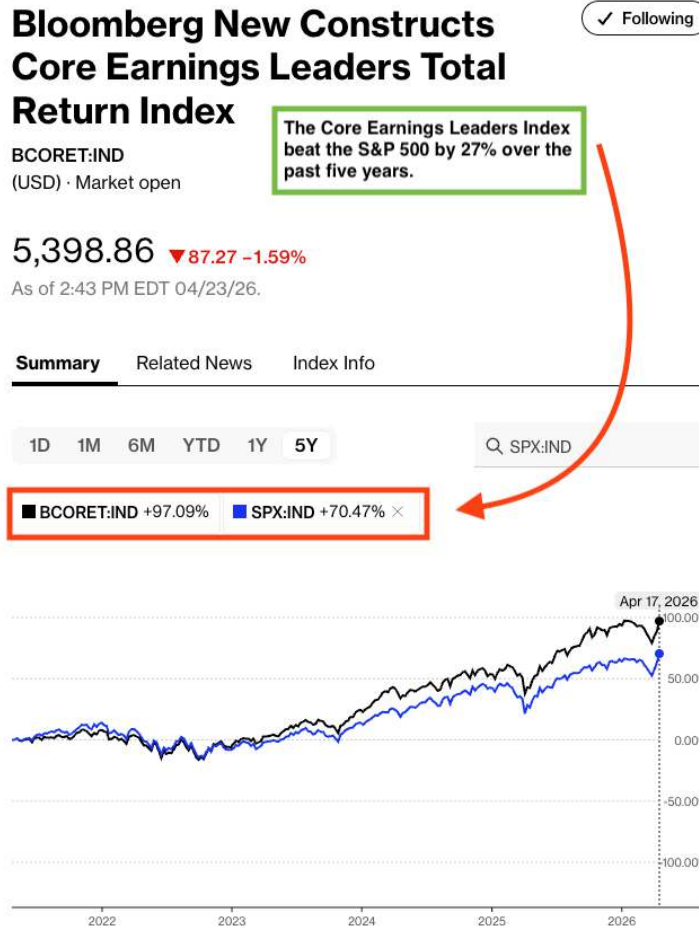

While we're writing about how our Focus List Stocks: Long Model Portfolio finds winning stocks, we should highlight the indices we've developed with Bloomberg's Index Licensing Group. All three have outperformed the S&P 500 over the past five years. See Figures 4-6.

1. [Bloomberg New Constructs Core Earnings Leaders Index](#) (ticker: [BCORET:IND](#))
2. [Bloomberg New Constructs Ratings VA-1 Index](#) (ticker: [BNCVA1T:IND](#))
3. [Bloomberg New Constructs 500 Index](#) (ticker: [B500NCT:IND](#))

The Bloomberg New Constructs Core Earnings Leaders Index, which allocates based on Earnings Capture and Core Earnings, beat the S&P 500 by 27% over the past five years. The Index (ticker: [BCORET:IND](#)) was up 97% while the S&P 500 was up 70%.

It's Official: We Deliver the Best Fundamental Data in the World

Many firms claim their research is superior, but none of them can prove it with independent studies from highly-respected institutions as we can. Three different papers from both the public and private sectors show:

1. The stock market is missing footnotes – and only we have that critical data.
2. Legacy fundamental datasets suffer from significant inaccuracies, omissions, and biases.
3. Our proprietary drives novel alpha. Our measures of [Core Earnings](#) and [Earnings Distortion](#) materially improve stock picking and forecasting of profits.

Best Fundamental Data in the World

In [The Journal of Financial Economics](#), a top peer-reviewed journal, [Core Earnings: New Data & Evidence](#) proves our Robo-Analyst technology overcomes material shortcomings in legacy firms' data collection processes to provide superior [fundamental data](#), [earnings](#) models, and [research](#). More [details](#).

Key quotes from the paper:

- “[New Constructs’] *Total Adjustments* differs significantly from the items identified and excluded from Compustat’s adjusted earnings measures. For example... 50% to 70% of the variation in *Total Adjustments* is not explained by S&P Global’s (SPGI) *Adjustments* individually.” – pp. 14, 1st para.
- “A final source of differences [between New Constructs’ and S&P Global’s data] is due to data collection oversights...we identified cases where Compustat did not collect information relating to firms’ income that is useful in assessing core earnings.” – pp. 16, 2nd para.

Superior Models

Ernst & Young features the superiority of our ROIC, NOPAT and Invested Capital research to Capital IQ & Bloomberg’s in [Getting ROIC Right](#). See the [Appendix](#) for direct comparison details.

Key quotes from the paper:

- “...an accurate calculation of ROIC requires more diligence than often occurs in some of the common, off-the-shelf ROIC calculations. Only by scouring the footnotes and the MD&A [as New Constructs does] can investors get an accurate calculation of ROIC.” – pp. 8, 5th para.
- “The majority of the difference...comes from New Constructs’ machine learning approach, which leverages technology to calculate ROIC by applying accounting adjustments that may be buried deeply in the footnotes across thousands of companies.” – pp. 4, 2nd para.

Superior Stock Ratings

Robo-Analysts’ stock ratings outperform those from human analysts as shown in this [paper](#) from Harvard Business School. Bloomberg features the paper [here](#).

Key quotes from the paper:

- “the portfolios formed following the buy recommendations of Robo-Analysts earn abnormal returns that are statistically and economically significant.” – pp. 6, 3rd para.
- “Our results ultimately suggest that Robo-Analysts are a valuable, alternative information intermediary to traditional sell-side analysts.” – pp. 20, 3rd para.

Our mission is to provide the best fundamental analysis of public and private businesses in the world and make it affordable for all investors, not just Wall Street insiders.

We believe every investor deserves to know the whole truth about the profitability and valuation of any company they consider for investment. More details on our cutting-edge technology and how we use it are [here](#).

DISCLOSURES

New Constructs®, LLC (together with any subsidiaries and/or affiliates, "New Constructs") is an independent organization with no management ties to the companies it covers. None of the members of New Constructs' management team or the management team of any New Constructs' affiliate holds a seat on the Board of Directors of any of the companies New Constructs covers. New Constructs does not perform any investment or merchant banking functions and does not operate a trading desk.

New Constructs' Stock Ownership Policy prevents any of its employees or managers from engaging in Insider Trading and restricts any trading whereby an employee may exploit inside information regarding our stock research. In addition, employees and managers of the company are bound by a code of ethics that restricts them from purchasing or selling a security that they know or should have known was under consideration for inclusion in a New Constructs report nor may they purchase or sell a security for the first two days after New Constructs issues a report on that security.
